THE GLOBAL PANDEMIC OF PHYSICAL INACTIVITY

Plenary Session of "Learning from The Lancet: Lessons and future research directions drawn from the 2012 and 2016 global series on physical activity and health"

- Pedro Hallal, President, Federal University of Pelotas
- I-Min Lee, Professor of Medicine, Harvard Medical School. Professor of Epidemiology, Harvard T.H. Chan School of Public Health
- Ulf Ekelund, Professor, Norwegian School of Sports Sciences
- James Rimmer, PhD, Director of the Lakeshore Foundation/University of Alabama-Birmingham Research Collaborative
- Willem van Mechelen, VU University Medical Center, Netherlands
- Kathryn Schmitz, President, American College of Sports Medicine
- Welcome by Michael Pratt, Professor and Director, Institute for Public Health and
- Jacqueline Kerr, Co-Lead, Moores Cancer Center Cancer Control Program

This event launches a multi-day series of meetings by an international panel of physical activity experts.

Funded by the National Cancer Institute and hosted by the Institute for Public Health, these visiting researchers and scholars from Europe, South America and the United States will be collaborating on a new Lancet journal supplement on Physical Activity and Global Public Health.

Join us to hear the most current global physical activity and health research, and how it can serve as a road map for future research and public health policy initiatives.

This Session is open to Faculty, students, and community members
