

Dear Department of Family Medicine and Public Health Faculty,

PLEASE SAVE THE DATE for a unique opportunity and dynamic presenter:

Rodrigo Reis, PhD

Speaking to the Department of Family Medicine and Public Health Faculty, For Public Health Grand Rounds

DATE: Thursday, October 20th, 2017

TIME: Schedule pending. (Announcement to follow.)

LOCATION: Liechttag Pavilion Room 107

Professor Rodrigo Reis

Rodrigo Reis is a Professor at the Washington University Brown School of Public Health and an Investigator at the Prevention Research Center. His research and teaching focuses on built and community environments and public health. Special interest areas include community interventions for promoting physical activity, and the effect of the built environment and active transportation on physical activity and health.

At the Brown School, Reis also serves as the Chair of the Urban Design specialization studies, in the Master of Public Health program. Prior to joining Washington University, Reis was on the faculty of Pontifical Catholic University of Parana, as well as the Federal University of Parana in Curitiba, Brazil. He has played an important role in international projects, such as Project GUIA (Guide for Community in Latin America), the International Physical Activity and Environment Network, the Design to Move Initiative, and Centers for Disease Control physical activity courses in Latin America.

He has published extensively in leading peer-reviewed journals. Contributions include participation in The Lancet Physical Activity Series published in 2012 and 2016, and The Lancet Urban Design, Transport, and Health Series published in 2016. He currently serves on the Board of the International Society of Physical Activity and Health.

In addition to presenting at Public Health Grand Rounds on October 20, 2017, Professor Reis will also be offering a Community-oriented presentation on Campus. The Community event date and location are being finalized. For more information, please check the Institute website at:
